LEYS

OPRITTEN & TERRASSEN

CONTEXT

The company Leys faced multiple challenges in managing their IT infrastructure. Inefficiency and time loss were problematic. They tried various solutions, but the desired outcome remained elusive.

During their quest for a new IT partner, they encountered IT Anywhere.

WHY IT ANYWHERE?

The company Leys chose to collaborate with IT Anywhere because:

- IT Anywhere possesses all the expertise needed to thoroughly analyze IT issues and address their root causes.
- IT Anywhere is easily accessible and responds promptly to questions and requests.
- IT Anywhere takes full control of IT management, allowing you to focus on your core activities.
- IT Anywhere doesn't sell unnecessary solutions, only those that are required.

"What really convinced us to collaborate with IT Anywhere was the trust they exude. They are accessible, respond quickly to our questions, and take the time to fully take care of us in the realm of IT management."

THE RESULTS

Thanks to the implementation of efficient systems at Leys company, no more valuable time is wasted on various IT issues.

IT Anywhere has brought about several improvements, including adding forms on the new website that allow customers to request quotes easily. Additionally, the WiFi network has been optimized, and stability has been introduced to the VOIP services.

This has resulted in significant enhancements in business performance.

ADVICE FOR OTHERS

The Leys company relies on IT Anywhere because knowledgeable actions are taken, and the best solutions are consistently proposed for the company.

"We value their dedication and expertise, and we wholeheartedly recommend them to other companies in search of a dependable IT partner."
